Growing Celery with the San Diego County Fair

Supplies:
Celery
Chopping Board
Knife (adult to assist)
Scissors
Medium Container
Healthy Soil
Plastic Gallon Container
Twig
Superhero Décor (see video)

Steps:

1. Cut celery stalks approx. 2 inches from the base and fill a medium container with approx. 2 inches of warm water.
2. Cut your twig into 3 sticks approx. 4” in length each (cut twig at angle).
3. Carefully poke twigs a few inches into celery base approx. 1” from the top. Place in container with celery base roots off the bottom, ½ way suspended in water.
4. Place in a sunny spot and replace water every other day.

Wait 3 weeks…

5. Have an adult help you cut a plastic gallon container (see video).
6. Fill with soil and place base of celery a few inches into the soil so that all you see if the new celery growing out.
7. Decorate your superhero planter and water daily – we recommend creating a cape that can be attached with a rubber band!
Date Started: ________

**Day 1-20:** Replace water every other day

**Day 21:** Plant in soil using plastic gallon container and continue to water until ready to eat.
