## **Materials**

Exhibitors must furnish their own materials, accessories, and labor for set-up and delivery. Management insists on the use of high-quality products and materials. All containers and accessories should be marked with a waterproof label listing the owner's name and phone number on the bottom of the container. Valued accessories, heirlooms, etc., should not be used. All elements must be tasteful and appropriate for display in a garden setting. At the discretion of Fair Management, any items deemed inappropriate or distasteful will be removed and held for pickup at the conclusion of the Fair.

## **Delivery & Pickup**

Exhibitors will deliver their container plant entries to the Fairgrounds on the designated delivery day. After closing entries, exhibitors will receive specific delivery directions and map. Vehicles must be parked in designated areas.

Container plants must be picked up between 7 AM and 5 PM on the designated pick-up day, unless prior arrangements have been made with the Garden Show Coordinator.

## **Maintenance**

Watering of entries during the Fair will be done by trained Garden Show staff per the Watering Schedule Form provided by each exhibitor before the Fair. [This watering schedule form](#) must be completed before Opening Day. Maintenance of plants in containers and landscapes throughout the entire Fair is critical, and entries should be inspected by the exhibitor often. Access for maintenance may be attained on open Fair days between 6-9 am (after which all vehicles must exit the Garden Show area) and on closed Fair days, any Monday or Tuesday between 6 am-6 pm. All vehicles must display a valid Garden Show Exhibitor permit on the dashboard or be subject to tow. Exhibitors must use their own tools and remove all equipment when finished with maintenance each day. Excessive watering that causes run-off into area drains may result in State-imposed fines. Any entry that is not maintained properly may be determined ineligible and have premiums withheld.

## **Water Quality Control Initiative**

The 22nd DAA has strict requirements associated with its stormwater permits (Industrial General Permit and Small Phase 2 MSR). Both permits require the 22nd DAA to ensure that no water, other than what falls from the sky, makes its way into the storm drain system. This includes excess plant water. Anyone found watering in a manner that results in discharges to

any storm drain shall be fined \$500 for the first incident. If the behavior continues, the violator shall be referred to the San Diego Regional Water Quality Control Board (SD RWQCB) for action. Fines and penalties levied by the SD RWQCB shall be the sole responsibility of the violator, along with any direct costs sustained by the 22nd DAA for clean-up and repair.

## Judging

Judging will take place on the date listed in the Exhibition Timeline. Exhibitors' and suppliers' names must be covered by exhibitors before judging. Failure to do so can result in disqualification. Exhibitors will not be permitted in or around the show area during judging. Failure to comply will result in disqualification.

### **Judging Criteria**

Entries are judged on overall health and quality of plant material; clean foliage without dead leaves, water spots, disease, or pests; decorative container selections and condition, including shape, texture, and color; overall balance and symmetry, originality, and artistic creation. Plants must have **proper plant labeling, including botanical and common names visible to the public. Labels must be legible, either typed or handwritten.** Illegible labels will disqualify the entry.

All accepted entries will be displayed in the Garden Show exhibit with any awards received.

## Awards

Award checks will be available at entry pick up following the last day of the fair. Checks not picked up will be mailed within 30 days. You must notify the Fair if the person or business name to be issued your award check is different from the exhibitor's name under which the entry was registered.
