SDCF- Residue Avoidance Program

In an effort to increase awareness of the responsibilities associated with the production of consumer-oriented products, the San Diego County Fair utilizes a Residue Avoidance Program.

This program requires exhibitors of market animals to sign a Medication Declaration Form. It is also required that breeding animals on medication also declare such treatment on a Medication Declaration Form. If an animal requires medical treatment while on the fairgrounds, only a licensed veterinarian will be allowed to administer any drug, chemical or feed additive. An exhibitor may choose a licensed veterinarian other than the official San Diego County Fair veterinarian, but the official San Diego County Fair veterinarian **MUST** be notified in advance, and he/she **MUST** be present. Furthermore, The Official San Diego County Fair Veterinarian, in agreement with Show management, reserve the right to treat any animal if, in the opinion of the Official San Diego County Fair Veterinarian, it is in the best interest of the animal's health and well-being to be treated.

All treatment costs are the responsibility of the exhibitor. All animals treated on the fairgrounds must submit a Medication Declaration Form. This form acknowledges the use of any substance in/on the animal for which the required withdrawal period has not completely elapsed prior to arrival at the Fair. This includes substances used per label or in an extra-label fashion. All extra-label drug usage **MUST** be done under the supervision of a licensed veterinarian, and their contact information is required. Any animal requiring medically necessary treatment within 48 hours of competition may need to be withdrawn from competition if hydration status, mentation or gait will be affected by the necessary treatment.

The intent of the program is not to prevent medical treatment, but to ensure the animal's well-being and fair competition. The decision of the Fair's committee in regard to eligibility for competition shall be final. The San Diego County Fair is continuing its Residue Avoidance Program and reserves the right to test any animal officially entered in any division at any time without notice, for foreign substance including but not limited to drugs, chemicals or feed additives.

Compounds tested for may include but are "not" limited to:

- Antibiotics
- Local Anesthetics
- Non-Steroidal Anti-Inflammatory Drugs
- Diuretics
- Sedatives/Tranquilizers
- Steroids/Growth Promotants

SDCF- Residue Avoidance Program (Continued)

Residue Avoidance Policy

1. The San Diego County Fair reserves the right to test any animal officially entered in any division at any time without notice, for any foreign substance including but not limited to drugs, chemicals or feed additives as well as DNA testing. At a minimum, some animals from the following groups will be tested: Champion and Reserve Market Animals, random selection of Market Animals, and any animals suspected of unusual physical appearance, demeanor or activity as deemed necessary by Fair Management and/or the Fair Licensed Veterinarian. As a condition precedent to accepting an entry, an entry form signed by the exhibitor, FFA (Agricultural Science) Instructor, 4-H Leader, Grange Advisor, Parent or Legal Guardian grants the San Diego County Fair permission to test any entry.
2. Testing may be performed on any body tissue or fluid on both the live animal and the carcass.
3. Test samples collected from all animals must have zero tolerance for any identifiable or unidentifiable foreign substances including drugs (legal & illegal), chemicals of any kind or feed additives unless established as permissible by the USDA or FDA or disclosed on the Medication Declaration Form.
4. If an animal has been administered a drug that is FDA approved for its species and class, sufficient time must have passed so that the animal does not test positive for that drug upon arrival at the San Diego County Fair. Animals must remain free and clear of all drug and chemical residues while on show grounds unless being treated by the County Fair veterinarian or a licensed veterinarian while the County Fair veterinarian is present. Please note that elimination time (the time it takes for no drug residue to be found in the system) is generally longer than the labeled withdrawal time for most approved drugs.
5. The showing of any animal that has been administered during its life any quantity of any unapproved drug, chemical or medication is strictly prohibited. Such drugs include, but are not limited to, any diuretic, unapproved growth stimulant or other unapproved medication. Unapproved means not approved by the Food and Drug Administration (FDA) and/or the U.S. Department of Agriculture (USDA) for slaughter animals including animals that may be destined for human consumption.

SDCF- Residue Avoidance Program (Continued)

6. Animals testing positive to an unapproved foreign substance including but not limited to drugs, chemicals or feed additives, will be disqualified and declared ineligible to receive awards, premium money or sale proceeds. In addition to the disqualification and forfeiture of awards, premiums and/or auction proceeds, the County Fair may release to the media the name of the exhibitor, leader, advisor and the name of the exhibitor's animal that was disqualified and was in violation of the Drug Residue Program. The live market animal or carcass that tests positive will immediately become the property of the County Fair and the exhibitor may be compensated for the market value, less expenses, if the animal passes inspection. Carcass of disqualified animals or poultry will be disposed of per instructions by CAHFS if disposed of before entering the food chain or by written instructions from USDA or FDA if already in the food chain.
7. If entry is disqualified, the entry and/or the exhibitor will be declared ineligible and will not receive awards, premiums and/or any sale proceeds, further the exhibitor will be responsible for payment of all fees (including attorneys' fees), fines, and costs incurred by the San Diego County Fair as a result of the disqualification and any proceeding related to the disqualification. The owner/exhibitor and members of his/her immediate family may not be eligible to compete in subsequent San Diego County Fair Programs. The extent and degree of future eligibility shall be determined by Fair management.

Wholesome Assurance Statement

1. The use by non-veterinarians of animal drugs or other substances in any manner other than in accord with the labeling approved by the FDA is a violation of federal law.
2. Abuse of the extra-label privilege by veterinarians is unethical and is subject to serious consequences such as license revocation.
3. Any food animal must not exceed FDA/EPA/USDA established tolerances for any foreign substances including drugs, pesticides, feed additives or other chemicals.
4. Violative results of residue testing are subject to investigation by the USDA and FDA for prosecution.
5. Any misrepresentation of a food animal that can potentially affect the acceptability of the carcass or milk will be considered fraud.
6. If a Junior Exhibitor be found in violation of any of the Livestock Show rules, he/she and his/her family may be forever barred from showing at the San Diego County Fair.
7. Postmortem Examination: The San Diego County Fair may require a postmortem examination of any animal which dies at the County Fair. This will be performed by a licensed veterinarian at the expense of the exhibitor.

Notice to Junior Livestock Exhibitors

1. **Residue Avoidance test fees:** Any fees related to testing any animal or carcass as required by The San Diego County Fair, USDA or FDA or food processors will be deducted from sale proceeds of the junior exhibitor.

Policy for 2026

1. If animal tests positive on the original residue test screen, the exhibitor shall be responsible for paying for the confirmation test. If the exhibitor fails to pay or post fees for the confirmation test, the animal in question will be declared ineligible.
2. It is the policy and rule of the San Diego County Fair that no animal which is entered for competition in the County Fair, at any point in which they are on the property of the San Diego County Fair, shall contain any trace residues of any substances which are not approved by the Food and Drug Administration (FDA) and/or the United States Department of Agriculture (USDA) for slaughter animals, unless disclosed on the Medication Declaration Form.
3. It is the sole responsibility of the Exhibitor to ensure that the animal is free of the prescribed drugs and substances listed in this Residue Avoidance Program. Extent of knowledge on the part of the Exhibitor with regards to the drugs or substance found in an animal is not relevant to any issue, and it shall not be the defense that person or persons unknown introduced the proscribed substance into the animal prior to, or at arrival, or after arrival on the San Diego County Fair property.
4. Personnel (employees and contractors) of the San Diego County Fair, other approved departments (and their representatives) within University of California at Davis, California Polytechnic State University, San Luis Obispo, and Pomona, California State University at Fresno or Chico, Modesto Junior College, University of California at Davis Veterinary Medical Teaching Hospital, FDA, USDA, California Department of Food and Agriculture, California Department of Health or any other representative approved by the San Diego County Fair reserve the right to take urine, blood, hair and other body tissue samples from any animal or its carcass at any time without notice, for the purpose of determining whether there is any residue of any substance found within the body of the tested animal. The exhibitor, by entering his/her animal, expressly agrees that he or she will cooperate with the person or persons charged with the responsibility of taking the sample from the animal at the time of arrival, weigh-in, during the show or any other time the animal is on the San Diego County Fairgrounds. Failure to fully cooperate with testing procedures, and/ or representatives collecting samples shall indicate a voluntary withdrawal by the Exhibitor of the animal from the competition, and result in the immediate disqualification of this project and automatic loss of participation privileges in all future California State Fair competitive events.

SDCF- Residue Avoidance Program (Continued)

5. All samples shall be taken by persons designated by the San Diego County Fair and tested in an approved Laboratory. Reasonable care will be taken regarding maintaining the purity and identity of the sample. The only chain of custody required will be that routinely relied upon by veterinarians practicing in and around the San Diego County Region.
6. As samples are taken, the Junior Exhibitor, a parent or legal guardian and/or a leader/supervisor shall be present to view the procedure. Upon collection of a sample, the Junior Exhibitor, and a parent or legal guardian or leader/supervisor shall provide their signatures to acknowledge that the sample was collected from the Exhibitor's animal.
7. If any animal is disqualified because of the violation of any of the rules found within the Residue Avoidance Program, or the animal is voluntarily withdrawn from the competition because of failure to cooperate with the testing procedures, then the Exhibitor shall immediately return awards and/or premiums previously presented. Regarding auction premium money, it shall be the option of the individual purchasing the disqualified animal to either donate the money to the Junior Livestock Auction for the next year's use or donate the money to the San Diego County Fair Scholarship Program, or upon request, receive a total refund of the auction premium money paid.
8. By making an entry in the San Diego County Fair Livestock or Small Animal Program, the Exhibitor, a parent or both parent(s)/legal guardian(s) and project leader/supervisor agree to abide by this Residue Avoidance Program.
9. Any misrepresentation of a food animal that can potentially affect the acceptability of the carcass or milk will be considered fraud.
10. If a Junior Exhibitor be found in violation of any of the Livestock Show rules, he/she and his/her family may be forever barred from showing at the San Diego County Fair.
11. Postmortem Examination: The San Diego County Fair may require a postmortem examination of any animal which dies at the County Fair. This will be performed by a licensed veterinarian at the expense of the exhibitor.
12. Test samples collected from all animals must have zero tolerance for any identifiable or unidentifiable foreign substances including drugs (legal & illegal), chemicals of any kind or feed additives unless established as permissible by the USDA or FDA or disclosed on the Medication Declaration Form.

SDCF- Residue Avoidance Program (Continued)

13. If an animal has been administered a drug that is FDA approved for its species and class, sufficient time must have passed so that the animal does not test positive for that drug upon arrival at the San Diego County Fair. Animals must remain free and clear of all drug and chemical residues while on show grounds unless being treated by the County Fair veterinarian or a licensed veterinarian while the County Fair veterinarian is present. Please note that elimination time (the time it takes for no drug residue to be found in the system) is generally longer than the labeled withdrawal time for most approved drugs.
14. The showing of any animal that has been administered during its life any quantity of any unapproved drug, chemical or medication is strictly prohibited. Such drugs include, but are not limited to, any diuretic, unapproved growth stimulant or other unapproved medication. Unapproved means not approved by the Food and Drug Administration (FDA) and/or the U.S. Department of Agriculture (USDA) for slaughter animals including animals that may be destined for human consumption.
15. Animals testing positive to an unapproved foreign substance including but not limited to drugs, chemicals or feed additives, will be disqualified and declared ineligible to receive awards, premium money or sale proceeds. In addition to the disqualification and forfeiture of awards, premiums and/or auction proceeds, the County Fair may release to the media the name of the exhibitor, leader, advisor and the name of the exhibitor's animal that was disqualified and was in violation of the Drug Residue Program. The live market animal or carcass that tests positive will immediately become the property of the County Fair and the exhibitor may be compensated for the market value, less expenses, if the animal passes inspection. Carcass of disqualified animal or poultry will be disposed of per instructions by CAHFS if disposed of before entering the food chain or by written instructions from U.S.D.A. or FDA if already in the food chain.
16. If entry is disqualified, the entry and/or the exhibitor will be declared ineligible and will not receive awards, premiums and/or any sale proceeds, further the exhibitor will be responsible for payment of all fees (including attorneys' fees), fines, and costs incurred by the San Diego County Fair as a result of the disqualification and any proceeding related to the disqualification. The owner/exhibitor and members of his/her immediate family may not be eligible to compete in subsequent San Diego County Fair Programs. INTERNATIONAL ASSOCIATION OF FAIRS AND EXPOSITIONS (IAFE)

NATIONAL CODE OF SHOW RING ETHICS

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the "IAFE National Code of Show Ring Ethics," fairs and livestock shows may have rules and regulations, which they impose, on the local, county, state, provincial and national levels. All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

The following is a list of guidelines for all exhibitors and all livestock in competitive events:

1. All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership and age of all animals entered. Misrepresentation of ownership, age or any facts relating thereto is prohibited.
2. Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
3. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
4. Animals shall be presented to show events where they will enter the food chain free of violative drug residues. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in an event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state and provincial statutes, regulations and rules affect the animal's performance or appearance at the event. If the laboratory report on the analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise. At any time after an animal arrives on the fair or livestock premises, all treatments involving the use of drugs and/or medications for the sole purpose of protecting the health of the animal shall be administered by a licensed veterinarian.
5. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, confirmation, or appearance, except external applications of substances to the hoofs or horns or animals which affect appearance only and except for surgical procedures performed by duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.
6. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.
7. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation, and respect and no person shall direct abusive or threatening conduct toward them.
8. No owner, exhibitor, fitter, trainer or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.

9. The application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.
10. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have disciplinary action taken by the fair or livestock show for violation of the Code of Show Ring Ethics and any other rules of competition of the fair or livestock show without recourse against the fair or livestock show. The act of entering an animal is the giving of consent that any proceedings or disciplinary action taken by the fair or livestock show may be published with the name of the violator or violators in any publication of the International Association of Fairs and Expositions, including Fairs and Expositions and any special notices to members.
11. The act of entering an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer or absolutely responsible person that he or she has read the IAFE National Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further consent that any action, which contravenes these rules and is also in violation of federal, state or provincial statutes, regulations, or rules may be, released to appropriate law enforcement authorities with jurisdiction over such infractions
